

Corporate Profile

ANEST IWATA Corporation

Aiming to Be a "True World-Class Company " for Our Customers around the World

In June 2021, ANEST IWATA reached 95 years since its foundation.

In order to become a “True World-Class Company”, based on the “customers first” principle, we will advance the creation of an optimal organizational structure and personnel cultivation that will allow us to respond to the needs of our customers in the various markets of the world.

ANEST IWATA will continue to be a company that assists people and their lives. At the same time, we will persist in earnestly observing “Trustworthy & Sincere,” our corporate motto since our foundation, and will continue to deliver the highest level of quality, technologies, and services. Further, the “ANEST” in “ANEST IWATA”, our company name, contains the sentiment of “Active with Newest Technology,” our aspiration to be a development-oriented company that is always vigorous and possesses cutting-edge technologies. Each and every employee of the ANEST IWATA Group around the world will come together as one in his/her respective field and endeavor toward the realization of that aspiration. We look forward to your continued patronage and support.

President Takahiro Tsubota

As of March, 2021

Company Name	ANEST IWATA Corporation
Founded	May 1 st , 1926
Established	June 2 nd , 1948
Capital	JPY 3,354,353,175
Listed Stock	First section of the Tokyo Stock Exchange, listed in 1973
Total Number of Shares Issued	41,745,505
Major Shareholders	<ul style="list-style-type: none">• Japan Trustee Services Bank, Ltd. 12.0%• The Master Trust Bank of Japan, Ltd. 7.9%• The Dai-ichi Mutual Life Insurance 5.5%• Supplier Stock Ownership 4.4%• Client Stock Ownership 4.4%
Main Business	<ul style="list-style-type: none">• Air compressors and associated products• Spray painting equipment, liquid application equipment, associated products and installation• Vacuum pumps and associated products
Accounting Term	March 31 st
Number of Employees	1,769 / Japanese: 621 (35%) and Other: 1,148 (65%) including group companies
Domestic Bases	Headquarters, 2 plants and 7 branches
Group	36 companies (Outside Japan : 34)
Accounting Period	March, 31

We have been leaders in the Japanese market for coating equipment and air compressors since our establishment over 90 years ago, and continue to supply the world's leading products.

1926 Former organization, Iwata Seisakusho, established.

1927 Started manufacture and sales of spray guns in Japan.

1928 Started manufacture and sales of small-sized air compressors.

1957 Established Iwata Air Compressor Mfg. Co., Ltd.

1962 Started full-scale entry to the coating system market.

1969 Nation's first two-way cooling system air compressor launched

1985 World's first paint coating robot launched.

1991 World's first oil-free scroll air compressor developed.

1993 World's first air-cooled oil-free scroll vacuum pump developed.

1995 World's first oil-free compressor using composite resin developed.

1996 Renamed ANEST IWATA Corporation to better reflect our corporate identity.

1999 World's first low-pressure spray gun with V-shaped grooved nozzle (LPH-400) launched.

2003 Nation's first external-charging electrostatic hand spray gun launched.

2005 World's first oil-free booster compressor developed.

2009 Global paint manufacturer recommends high performance of WS-400 spray gun.

2009 Oil-free booster compressor received energy-saving mention from the Japan Machinery Federation.

2013 Developed compact binary power generator, subsequently adopted for development project by NEDO.

2015 World's highest output power (7.5kW) oil-free scroll compressor of developed.

2017 F series (7.5kW) of oil-free scroll compressor received energy-saving mention from the Japan Machinery Federation.

2020 WIDER1 of spray gun received design award mention by Nikkan Kogyo Shinbun, Ltd.

2020 Change in the Corporate Slogan (Active & Newest Technology ▶ Active with Newest Technology)

Mechanism of Scroll

Spray Gun
(WS-400)

In 1996, the company name was changed
from **Iwata Air Compressor MFG. Co., Ltd.** to **ANEST IWATA Corporation.**

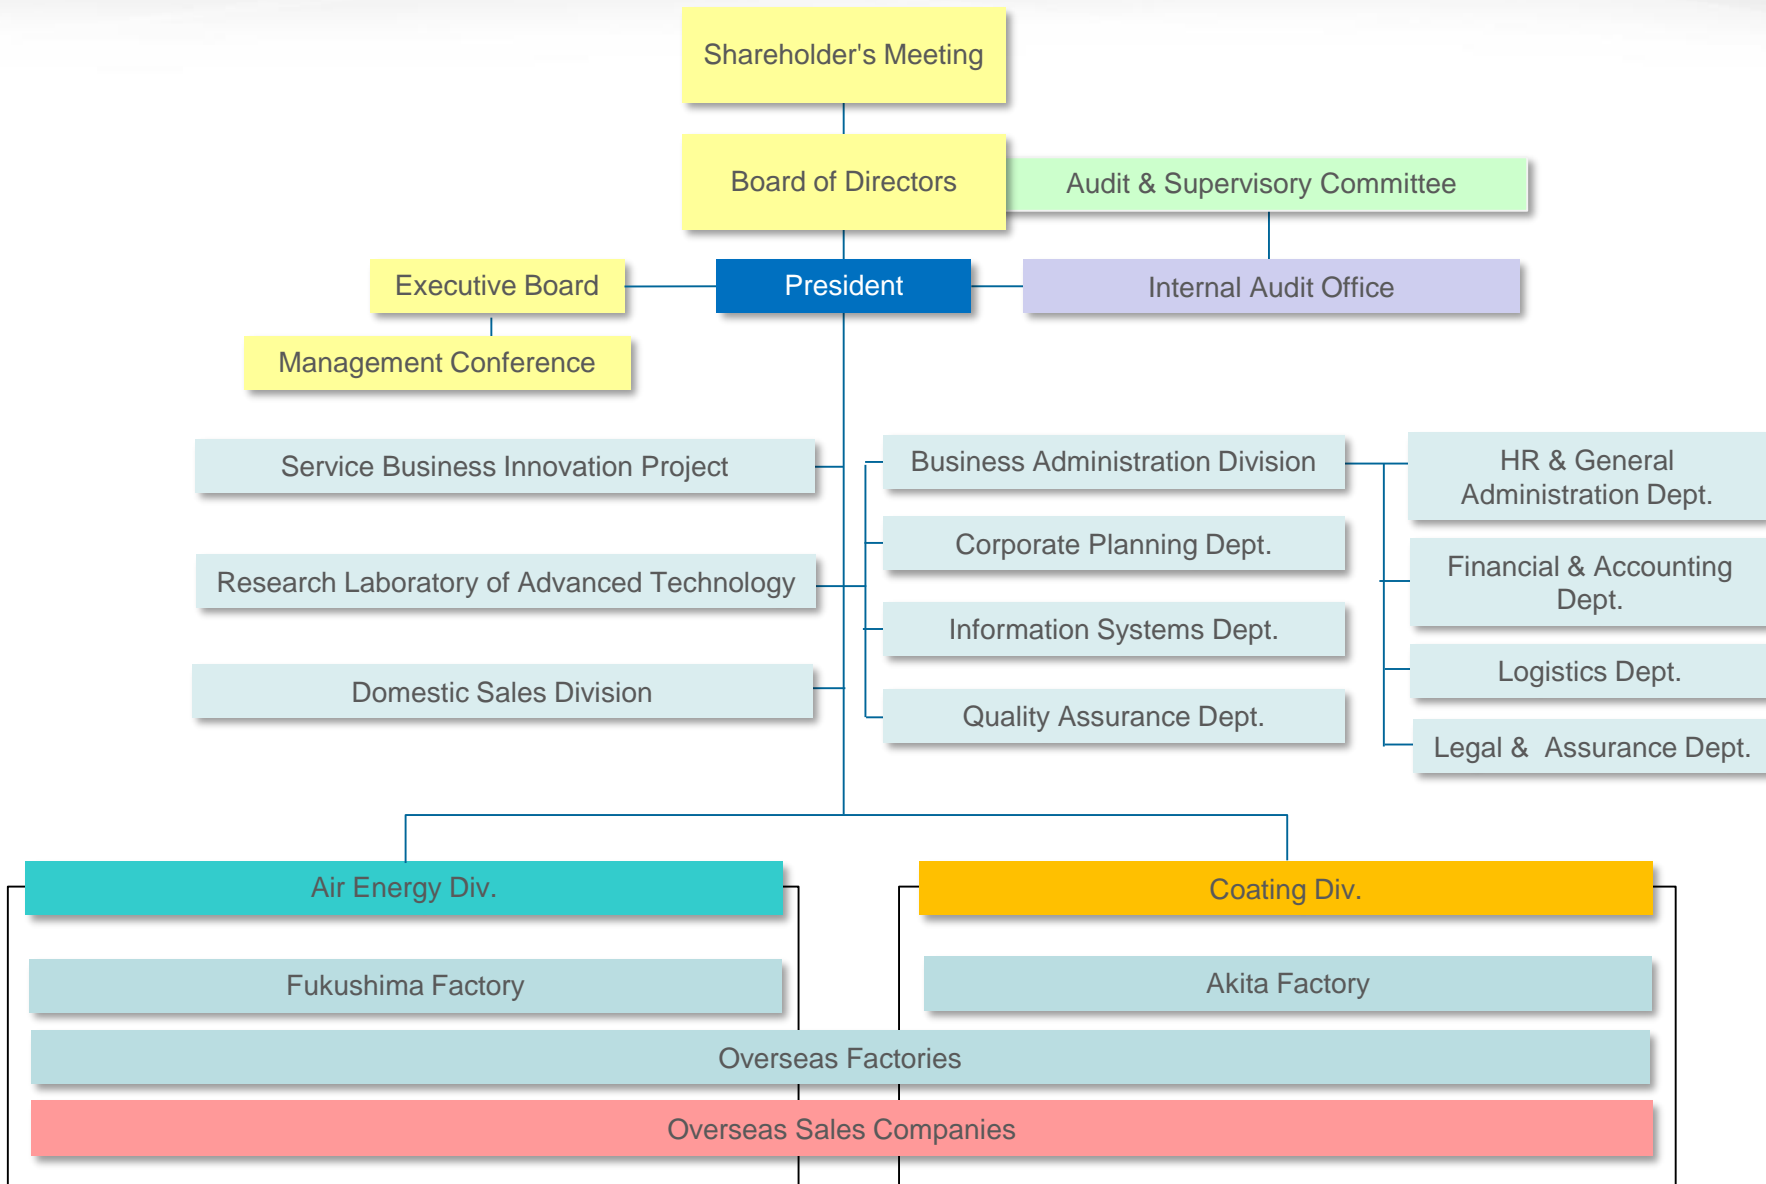

What are the origins of ANEST ?

Incorporate the corporate motto of “Trustworthy & Sincere” into the company name.

EARNEST + HONEST = ANEST

Active, development-oriented corporation with the newest technology.

Active with Newest Technology

Oil-free models are now common in the air compressor market and are being used in a wide variety of applications such as pneumatic equipment and spray painting in the likes of the semiconductor, food & beverage, medical, dental, and pharmaceutical industries.

Our aim is to be a system of engineers in the field of compressed air who can satisfy our clients' needs with products that provide a high quality, highly efficient net air supply, based on our long experience of oil-free technology.

Precision Work

Laboratories

Food Processing

Medical Treatment

Gas Supply Systems (Nitrogen gas generator)

Food packing machine

Booster Compressor

Electric Train

Excellent reception for the world's first air-cooled, oil-free, scroll-type vacuum pumps

ANEST IWATA developed the world's first air-cooled oil-free scroll-type vacuum pumps. Our oil-free scroll vacuum pumps are more compact, vibrate less, and produce less noise than other dry vacuum pumps. Our oil-free scroll vacuum pumps are highly respected for their quality by customers in every industrial field.

Vacuum cooking

Semiconductor manufacturing

Coating technology is utilized by many different industries including auto-assembly, electrical appliances, metal-/plastic-/wood-working, steel fabrication such as bridges, not to mention nail art. We promote “total painting and coating solutions” by offering technology capable of creating optimal finishes.

Spray Guns

Pumps

WIDER
This Is The Newest Spray Gun

Spray guns for industrial coating (WIDER Series)

Spray guns for automotive refinishing (kiwami Series)
Flagship spray gun for automotive refinishing (WS-400)

Diaphragm Paint Pump (DPS Series)

Agitator (Mazeco Series)

Airless Unit (ALS Series)

Car Coating for Maintenance and Repair

3D paint simulator

Art and Hobbies

Airbrush

We offer not only the products but also various paints and accessories.

Coating Systems

Eco-friendly electrostatic painting equipment with high transfer efficiency (liquid · powder)

Collaboration with Japanese artist Katsuhiko Hino's personal exhibition

Category of Products

Glossy finish auto spray guns (GFA Series)

Gear pumps (GPA Series)

Two-component mixing unit (i4 Mixer)

Cylinder pump units (CYP Series)

Painting robots (APR Series) SWAN

Use Applications of Painting Systems

Small workpiece spindle-type for painting car bodies, etc.

Medium workpiece conveyor type for painting car bumpers, doors, lights, TV frames, etc.

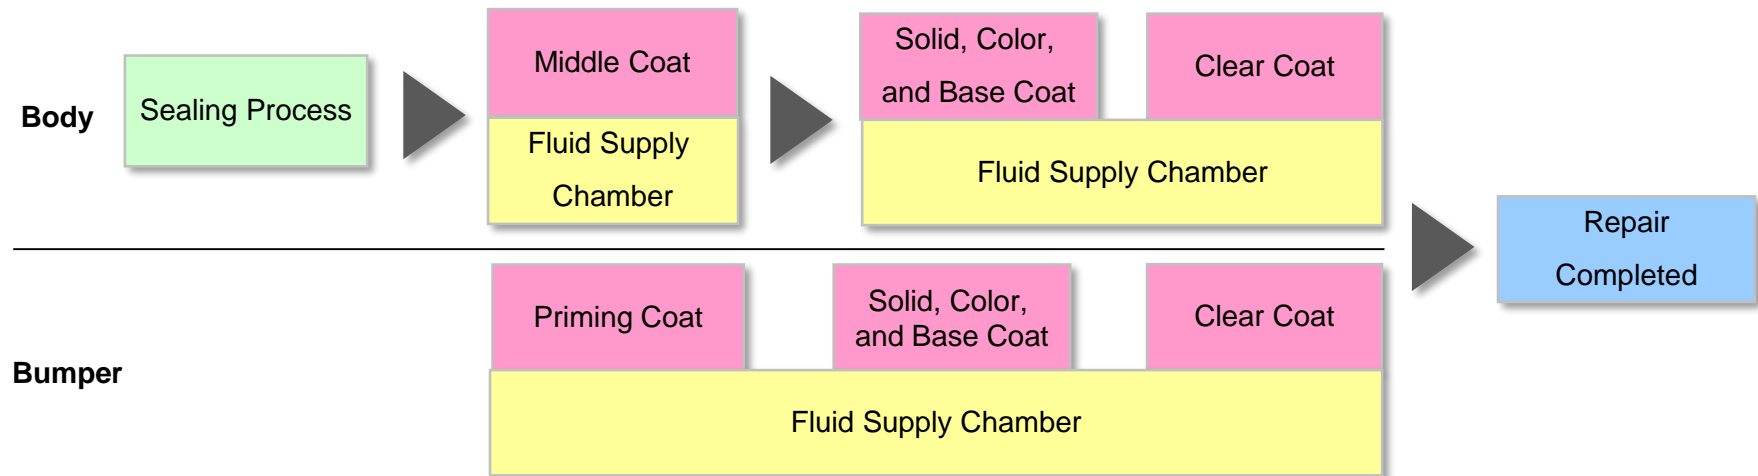

Tool changer

Large workpiece type for painting rail cars, bogies, building components, etc.

For the automotive industry, we offer products for spray coating and fluid supply. To allow manufacturers to increase productivity, reduce costs, and maintain product quality while being environmentally friendly, we have been working towards achieving higher transfer efficiencies in coating.

Line Coating

Our Products for Each Process

Hand flow gun

Air spray gun

Electrostatic air hand gun

Fluid supply bellows seal pump

Fluid supply diaphragm pump

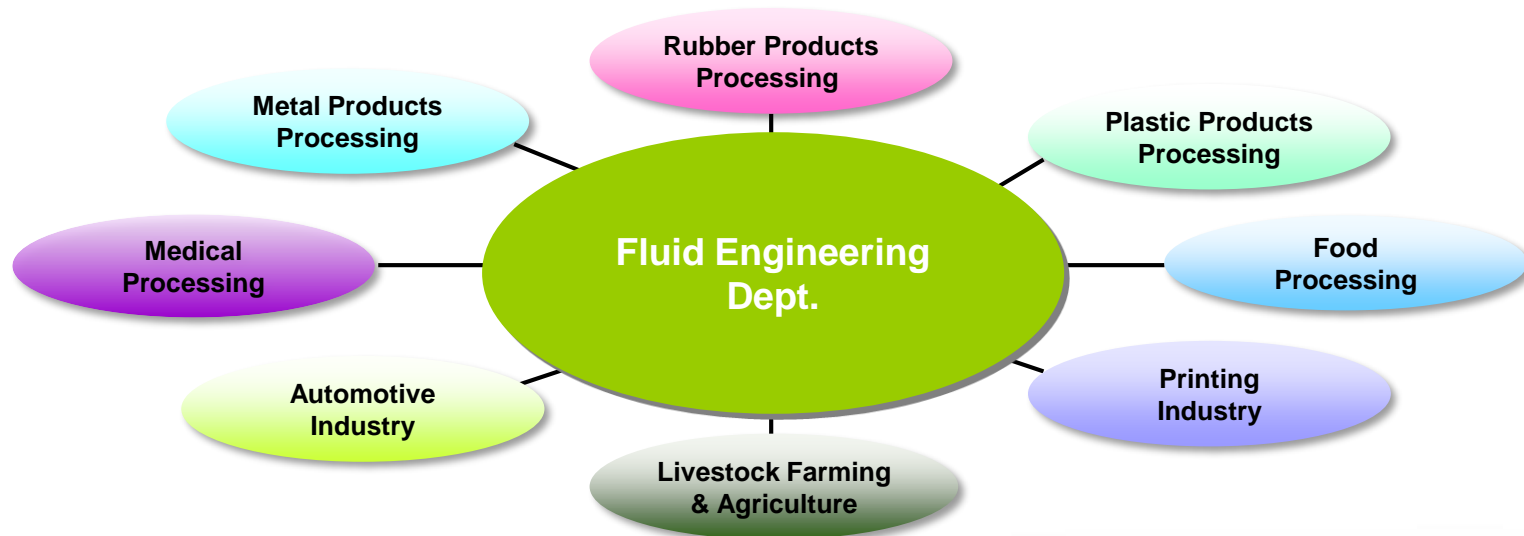

Automotive refinishing spray gun

The Fluid Engineering Dept. was spun off from the Coating Equipment & Systems Div. in 2010.

The Fluid Engineering Dept. is positioned as a business unit offering consultations related to the following [non-paint applications](#).

- 1) Low- and high-pressure handling
- 2) Low- and high-viscosity handling
- 3) Liquid and high-solid mixture material handling

We provide optimal products, spray guns, pumps, and accessories as well as the related know-how for achieving the purposes of each material.

Metal Product Processing

Applying mold release agent for die-cast processes

Automobile-Related

Applying mold release agent in urethane foam processes

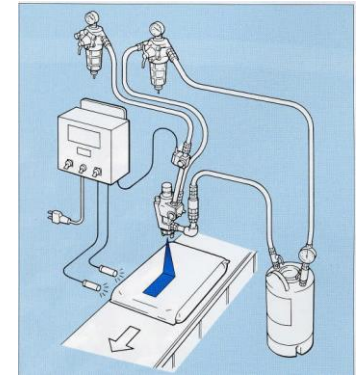

Food Product Processing

Stable feed of food materials

Logistics Related

Application of anti-slip agent to cardboard boxes

Applying mold release on die-casting machines

Cooling of cast items

Applying lubricants to cutting tools of cutting machines

Applying mold release to rubber mold items

Applying rust-proofing oil to metallic items

Innovator in fluid coating and supply control

Applying adhesive to building materials

Applying adhesive to interior automotive trim

Applying deodorant inside second-hand cars

Applying spatter-prevention liquid

Applying of electrical insulation to printed circuit boards during manufacturing
